A. INTRODUCTION

Regional Water Safety - A Community Approach

Water Safety New Zealand Inc (WSNZ) was formed in 1949 and is a nationally recognized organisation responsible for ensuring all New Zealanders have the water safe skills and behaviours necessary to use and enjoy the water safely.

WSNZ promotes water safety education as an issue for all New Zealanders and advocates that the impact and incidence of drownings can be reduced through a mix of educational initiatives. Improving public awareness of the environment and its potential risk factors, highlighting areas of skill improvement and supporting technological advances are some of the key aims of WSNZ.

One of the fundamental undertakings of WSNZ is the public education of water safety within New Zealand. In the past education has proven to be the most effective and efficient way to promote and improve water safety. WSNZ supports the notion that education is not only about learning to do what is safe but also about empowering people to make safe decisions in, on and under the water.

In 2007 Water Safety New Zealand (WSNZ) initiated the development of regional water safety education forums. These forums became a place whereby its members and other stakeholders in water safety could meet to discuss water safety education within their communities. As a result of these discussions individual regional water safety education plans were developed. These plans mapped and identified water safety education initiatives occurring within regions, as well as identifying gaps and opportunities for future consideration.

The vision of these forums is to improve water safety education as well as reduce the incidence of drowning and water related injuries within New Zealand.

Each year two regional forums are held. One is held before summer commencing in October and at summer's end in April. As well as being the key contact organisation for the forums, WSNZ has undertaken the responsibility of facilitating all aspects of these forums.

B. WSNZ TACTICAL BUSINESS PLANNING 2009-2012

WSNZ has developed a tactical business plan (see Appendix 1) which outlines the tasks WSNZ intends to undertake within territorial local authorities. This plan also forms the basis of reporting to the WSNZ Board. (Copies can be obtained from www.watersafety.org.nz/regional/index.asp)

Community collaboration and partnership is an important determinant towards the achievement of WSNZ "Desired Outcomes" and the reduction of drowning and water related injuries within New Zealand.

C. ROLES AND RESPONSIBILITIES OF FORUM PARTICIPANTS

The water safety backgrounds, roles and responsibilities of forum participants are many and varied and have not been specifically detailed in the plan. However information is readily available by contacting respective forum members. (refer to Appendix 2 and 4).

It is important to note, Water Safety New Zealand has 37 members (See Appendix 2). Some organizations such as Water Safety New Zealand itself, are wholly concerned with water safety while others have several broad roles - for example surf lifesaving, which has surf rescue, surf sports and surf safety education with water safety education being but one of its community services.

D. THE WHANGANUI WATER SAFETY PLAN 2009-2012

The Whanganui Water Safety Education Plan is a living document that has been developed by Whanganui water safety organisations and community leaders who have an interest in water safety within the Whanganui Region. (It is a 'living' document in the sense that it is revised on a regular basis according to feedback received from Forum participants)

Water Safety New Zealand staff will facilitate the planning process for the two Water Safety Forums as well as map and update water safety initiatives within the Whanganui Region. They will also act as the key contact organisation for these forums and the associated regional plans.

E. PURPOSE OF THE WATER SAFETY PLAN

The purpose of the plan is to:

1. Coordinate regional initiatives so that they are in alignment with the strategic planning of WSNZ and the Drowning Prevention Strategy. This strategic direction is set out overleaf as Strategic Foundations – Whanganui Water Safety Education Plan 2009 – 2012.
2. Identify, map, develop and meet the water safety needs of the Whanganui region.
3. Aim to develop programmes relevant and specific for the needs of Whanganui region.
4. Bring together members of the Whanganui water safety community with the aim of fostering collaboration and partnership.
5. Market water safety programmes, activities and resources to schools and the wider community where appropriate.

F. BACKGROUND

The Whanganui Water Safety Education Plan is aligned with the strategic planning of both WSNZ and the Drowning Prevention Strategy.

Water Safety New Zealand– Strategic Direction

“Vision: Everyone will have the water safe skills and behaviours necessary to use and enjoy the water safely

Mission: Through water safety education, prevent injury and drowning

Purpose: To lead water safety education in the Whanganui region

GOALS

1. Leadership
 - a. To be the recognised leader in the effective advocacy of water safety education to the community
2. Education
 - a. The WSNZ collective to be respected leaders in the coordination and provision of quality water safety education
3. Collaboration
 - a. To develop and maintain strong collaborative relationships within WSNZ to enhance the development, delivery and experience of water safety education
 - b. To develop and maintain strong collaborative relationships between WSNZ and government and community leaders to support water safety education outcomes”¹

Drowning Prevention Strategy - Strategic Direction

Vision

“A WATER SAFE NEW ZEALAND, FREE FROM DROWNING A WATER SAFETY CULTURE ESTABLISHED IN NEW ZEALAND

“Goal 1: Provision of effective Leadership by the water safety sector and government

Objective 1: To provide strategic direction and effective coordination for the water safety sector

Goal 2: Delivery of Exceptional Water Safety Services

Objective 6: To provide quality water safety education and awareness

Objective 7: To create safer environments in, on under and around water

Objective 8: To enhance community and sector engagement in water safety initiatives”²

¹ *Water Safety New Zealand Strategic Direction 2007-2012*, p.p. 3, 6-8

² *Drowning Prevention Strategy Toward A Water Safe New Zealand 2005-2015*, p.p. 20, 27, 29

G. PRINCIPLES UNDERPINNING THE PLANNING PROCESS

The following principles are guidelines for water safety planning in the Whanganui Region.

1. The content of the plan is aligned with the strategic directions of WSNZ and ACC previously described.
2. Education is the preferred means of reducing drowning both in the short and long term.
3. The plan is specific to and focused on water safety initiatives in the Whanganui Region that aim to meet needs identified by the community.
4. Programmes, activities and resources are delivered by certified instructors from water safety organisations to community groups, early childhood centres and schools with assistance from Water Safety New Zealand where support is required.
5. Best practice and evidence is utilised to promote and lead water safety intervention in the Whanganui Region.
6. While the plan has a three year outlook and goals, it has a strong focus on annual delivery.
7. The Plan recognises and takes in to account the key geographical features of the Whanganui. See Section H.

Phone: (06) 349 0001

I. THE ANNUAL PLANNING CYCLE FOR THE WHANGANUI REGION

Planning is developed, updated and an evaluation is undertaken at two Water Safety Forums held before summer commences in October and at summer's end in April.

J. PLANNING TASKS TO BE COMPLETED AT THE OCTOBER 2009 FORUM

1. Drowning and associated data is reviewed and analysed. See Appendix 3.
2. Forum attendees will update their programmes, activities and resources available for delivery in the 2009/2010 year. New initiatives will be included and where appropriate out of date programmes/resources deleted. See Appendix 4.
3. Where appropriate forum attendees will participate in a needs analysis which will identify and map possible areas of development within their communities. Refer Appendix 5.
4. Forum attendees will update the Delivery Plan for the period 1 October to 31 March. Refer Appendix 6.

K. PLANNING TASKS TO BE COMPLETE AT THE APRIL 2010 FORUM

1. Drowning and associated data is reviewed and analysed. See Appendix 3.
2. Forum Attendees will update their programmes, activities and resources available for delivery in the 2010/2011 year. New initiatives will be included and where appropriate out of date programmes/resources deleted. See Appendix 4.
3. Where appropriate forum attendees will evaluate the programmes initiated subsequent to the October Forum and participate in a needs analysis which will identify and map additional areas of development within their communities. Refer Appendix 5.
4. Forum attendees will update the Delivery Plan for the period 1 April to the 30 September. Refer Appendix 6.

L. CONCLUSION

Many challenges face water safety within New Zealand however through coordinated partnership, effective planning and needs analysis, improved water safety can be achieved.

Please direct any questions, queries or contributions of the plan and/or the planning process to Roger Scott, Regional Manager Water Safety New Zealand

Appendix 3 Regional Drowning Report – Whanganui

This report provides information on fatal drownings¹ in the Whanganui Region² in 2008 and hospitalisations due to submersion incidents and ACC accepted water related entitlement claims in the Manawatu-Wanganui Region in 2008.

The tables below provide further detail on the drownings in the Whanganui region –

Activity	2008	5 year total	5 year average
<i>Recreational</i>			
Diving/Jumping	-	1	0.2
Other Recreation	-	1	0.2
Over 4m	1	-	-
Rowing Craft/Dinghy	-	1	0.2
Swimming	-	1	0.3
Tubing / Canyoning	7	-	-
<i>Non Recreational</i>			
Immersion Incident	-	5	1.0
<i>Other Activities.</i>			
Road Vehicle	-	5	1.0
Suicide	-	2	0.4
Total	8	16	3.2

Environment	2008	5 year total	5 year average
Beaches	-	1	0.2
Home Pools	-	1	0.2
Inland Still Waters	-	1	0.2
Offshore	1	-	-
Rivers	7	12	2.4
Tidal Waters	-	1	0.2
Total	8	16	3.2

¹ Fatal drowning information is sourced from Water Safety New Zealand's DrownBase™ and is provisional.

² Whanganui Region being defined as the Ruapehu and Whanganui District councils.

Age	2008	5 year total	5 year average
00 – 04	-	1	0.2
05 - 14	-	-	-
15 - 24	7	4	0.8
25 - 34	1	3	0.6
35 – 44	-	2	0.4
45 – 54	-	2	0.4
55 – 64	-	2	0.4
65 +	-	2	0.4
Total	8	16	3.2

Ethnicity	2008	5 year total	5 year average
Asian	1	-	-
Maori	-	5	1.0
NZ European	6	10	2.0
Other	1	1	0.2
Unknown	-	1	0.2
Total	8	16	3.2

- 8 people drowned in the Whanganui Region in 2008. The five year total (2003-07) is 16 drowning deaths, an average of 3.2 deaths per annum. *The number of drownings increased significantly in 2008 due to the Mangatepopo canyoning tragedy where seven people drowned in April 2008.*
- 98 people drowned in New Zealand in 2008.
- Of the 8 drowning victims in the Wanganui Region in 2008, three (38%) were females. The five year average of females drowning is 25%.
- Of the 8 drowning victims in 2008, 0% resided in the region. The five year average is 94%. This lower percentage in 2008 is due to the Mangatepopo canyoning tragedy.

Appendix 3 (Continued)

Hospitalizations¹ Due to a Submersion Incident

There were 10 hospitalisations of Manawatu-Whanganui residents as a result of submersion incidents in 2008. The five year average (2003-07) is five hospitalisations per annum.

Activity	2008	5 year total	5 year average
Accidental Immersion	3	5	1
Boating – Other or Unspecified	-	1	0.2
Domestic	-	1	0.2
Fishing	2	-	-
Other Recreation	-	1	0.2
Other Unspecified Activity	2	5	1
Swimming	3	11	2.2
Total	10	24	5

Environment	2008	5 year total	5 year average
Area of Still Water	-	1	0.2
Beach	2	4	0.8
Large Area of Water	3	3	0.6
Other Domestic	-	4	0.8
Other Unspecified Environment	3	3	0.6
Pool	-	6	1.2
Stream	2	3	0.6
Total	10	24	5

ACC Accepted New Non-Work Water Related Entitlement Claims in 2008 in the Manawatu-Whanganui Region (region where the injury occurred)

Boating	Fishing	Kayaking	Surfing	Swimming	Underwater Diving	Water-skiing	Wind-surfing	All
6	4	<=3	<=3	14	<=3	4	-	32

¹ Hospitalization involves being in the hospital for a period of 24 hours or longer.

Appendix 4

Whanganui Water Safety Education Programmes, Activities and Resources Available for Delivery in the Whanganui Region

The following is a list of Current Education Initiatives available in the Whanganui Region.

Programmes/Activities/Resources	Target Groups	Content	Website
Learn to Swim / Water Safety Instruction Splash Centre – Wanganui Taihape Swim Centre – Stingers Swim School	All	Learn to Swim / Water Safety education from 6mths to adults

Appendix 5 Whanganui Water Safety Needs Analysis

The following water safety needs for the Manawatu-Wanganui Region were identified at the Manawatu-Wanganui Regional Water Safety Forum held 14 September 2009 at the Levin Aquatic Centre. Notes on the status of the programme can be listed in the column provided and in the notes section overleaf (page 18)

Need / Programme Type	Target group/s	Potential Deliverers	Budget Required	Prioritise the need (rank high/medium/low)	Status
Learn to Swim and Survive School accessibility (in school time)	Schools – lower / middle socio economic	Swim Schools , classroom teachers, community required, RLSS	??	High	
Learn to Swim and Survive School accessibility (outside of school hours)	Primary school – lower/middle socio economic	Swim Schools , classroom teachers, community required, RLSS	2 x weeks wages Advertising Pool space	High	
Shared human resources (holiday time)	Principals, Councils			High	
Vehicles on beaches seat belts – ATV's	Recreational fishers, general public that utilise the beaches	NZ Police, SLZLNZ, ACC	?	Medium/low	
Education to new immigrants Water Safety Instruction in Schools	Overseas foreign students Schools/Swim Schools	 Swim Schools / SNZ		 Very High	
Recreation boaties, safer with boating. Legislation regarding aspects, alcohol, lifejackets, beacon's	All boat owners/users	Maritime NZ Ministry of Transport Ministry of Fisheries Coastguard	Fuel Tax – Millions?	Very High	
Pool Fencing – Spa's, home pools Regular inspection (consistency across NZ)	All pool owners	Council		Very High	

Appendix 5 (Continued)

Need / Programme Type	Target group/s	Potential Deliverers	Budget Required	Prioritise the need (rank high/medium/low)	Status
River Safe Training – include self rescue / techniques	Scouts, Girl Guides, Hunters, Tramping Clubs, Schools, Rod & Rifle clubs	Mountain Safety Council SARNZ Schools		Medium	

Notes on status of programmes:

Whanganui Water Safety Education – Delivery Plan for the Period of 1 October 2009 – 30 September 2010

Instructions to the Members of the Forums

1. Please indicate with a tick (✓) the areas in which your organisation will be delivering water safety programmes, activities and resources in the chart below.
2. Record any new initiatives in the columns provided.
3. If you undertake new water safety projects during the year please advise roger@watersafety.org.nz and your project will be included in the next revision of the plan.
